2027 Population Health Management Summit for Payers & Providers

Innovative Strategies to Advance Population Health: Achieve the Triple Aim Through Value-Based Care, Improve Patient Centered Care, Enhance Healthcare Data & Technology, and Reduce Overall Healthcare Costs!

February 11 – 12, 2027 • Hilton San Diego Bayfront Hotel • San Diego, CA

Overview

Payers and Providers are being greatly challenged to create effective programs and methods to deliver high quality, patient-centric healthcare that significantly improves patient outcomes while dramatically reducing healthcare spending. Today, Population Health Management is at the forefront of the value-based healthcare landscape, in an effort to successfully achieve the Triple Aim. Population Health Management strategies are being focused on improving the health of the nation's patient population through enhanced care coordination and preventative measures that deliver the highest quality of patient care, while significantly reducing costs. Innovative processes have been implemented and are continuing to evolve and expand, including collaborative programs and efforts between Health Plans, Hospitals and Health Systems.

We have created an exciting, high-level forum featuring knowledgeable leaders and executives from the nation's leading Health Plans, Hospitals and Health Systems who will share their perspectives, valuable insights and expertise on how to be best equipped for the rapidly evolving landscape of Population Health Management. By attending the **2027 Population Health Management Summit for Payers & Providers**, attendees will benefit from learning about best practices and strategies that have been deployed to address the challenges in transforming the nation's healthcare to improve and maintain a healthy population while reducing healthcare spending. This exclusive event targets senior level executives in order to maximize educational and networking opportunities.
