

2019 Population Health Management Forum for Payers & Providers

Innovative Strategies to Advance Population Health: Achieve the Triple Aim Through Value-Based Care, Improve Patient Centered Care, Enhance Healthcare Data & Technology, and Reduce Overall Healthcare Costs!

July 25 – 26, 2019 • THE US GRANT, A Luxury Collection Hotel • San Diego, CA

Overview

Payers and Providers are being greatly challenged to create effective programs and methods to deliver high quality, patient-centric healthcare that significantly improves patient outcomes while dramatically reducing healthcare spending. Today, Population Health Management is at the forefront of the value-based healthcare landscape, in an effort to successfully achieve the Triple Aim. Population Health Management strategies are being focused on improving the health of the nation's patient population through enhanced care coordination and preventative measures that deliver the highest quality of patient care, while significantly reducing costs. Innovative processes have been implemented and are continuing to evolve and expand, including collaborative programs and efforts between Health Plans, Hospitals and Health Systems.

We have created an exciting, high-level forum featuring knowledgeable leaders and executives from the nation's leading Health Plans, Hospitals and Health Systems who will share their perspectives, valuable insights and expertise on how to be best equipped for the rapidly evolving landscape of Population Health Management. By attending the **2019 Population Health Management Forum for Payers & Providers**, attendees will benefit from learning about best practices and strategies that have been deployed to address the challenges in transforming the nation's healthcare to improve and maintain a healthy population while reducing healthcare spending. This exclusive event targets senior level executives in order to maximize educational and networking opportunities.

Implementing Effective Care Coordination Practices to Improve Population Health Management

About World Conference Forum

World Conference Forum is a conference/event production company that focuses on timely topics within healthcare, finance, technology and law. Our conferences enable attendees to walk away with innovative and practical strategies to implement within their organizations. We convene C-Level and Senior-Level executives to present and network on game changing ideas within the rapidly evolving marketplace.

The typical audience at any of our conferences is comprised of subject matter experts/thought leaders, attendees/speakers involved first-hand within their organizations, and vendors/solution providers offering innovative solutions - this dynamic makes any of our conferences an ideal venue for finding the right partners, networking and staying current on the latest market trends.
