

2027 Artificial Intelligence for Hospitals & Health Plans Summit

Harnessing Artificial Intelligence to Transform Healthcare: Bridging Hospitals and Health Plans for Smarter, Seamless, and Patient-Centered Care

April 22 – 23, 2027 • Caesars Palace Hotel • Las Vegas, NV

Overview

Artificial intelligence is no longer a concept of the future – it is rapidly becoming an essential tool for modern healthcare. This conference brings together leaders from hospitals, health systems, and health plans to explore how AI is reshaping the way care is delivered, managed, and financed. From clinical decision support and predictive analytics to claims automation and member engagement, AI is unlocking new levels of efficiency, accuracy, and personalization across the healthcare ecosystem. Attendees will hear from innovators, researchers, and industry executives who are building and deploying AI solutions that improve outcomes, reduce costs, and streamline operations in both provider and payer settings.

Through case studies, expert panels, and practical workshops, the conference will address the promise and challenges of AI adoption – examining topics such as data integration, model transparency, regulatory frameworks, and ethical considerations. Participants will leave with a deeper understanding of how to implement AI strategically and responsibly in their organizations. Whether your focus is patient care or population health, revenue cycle or risk stratification, this conference offers actionable insights into how AI can help hospitals and health plans lead the next era of healthcare transformation.

Intended Audience

From Hospitals, Health Systems, Health Plans, Providers & Payers:

Chief Executive Officers, Chief Operating Officers, Chief Financial Officers, Chief Quality Officers, Chief Marketing Officers, Chief Medical Officers, Chief Strategy Officers, Chief Pharmacy Officers, Chief Information Officers, Chief Innovation Officers, Patient Safety Officers, Chief Technology Officers

Also, Presidents, Vice Presidents, Directors & Managers of:

- | | |
|--------------------------------|-------------------------------|
| • Artificial Intelligence | • Virtual Care |
| • Innovation | • Telehealth |
| • Population Health Management | • Health Promotion & Wellness |
| • Medical Management | • Community Health |
| • Medicare | • Medicare Advantage |
| • Senior Products | • Government Programs |
| • Value-Based Health | • Patient Quality & Safety |
| • Innovation | • Sales |
| • Compliance | • Managed Care |
| • Care Management | • Product Development |
| • Operations | • Finance |
| • Strategy | • Quality |
| • Business Development | • Pharmacy |
| • Regulatory Affairs | • Disease Management |
| • Risk Management | • Community Health |

- Utilization Management
- Health Reform

- Network Management
- Pharmacy

This program is also geared towards States, Government Agencies, Vendors, Employers, Purchasers, Population Health Management Organizations, Physician Groups, Managed Care Organizations, Wellness & Prevention Companies, Healthcare Technology Innovators, Healthcare Consultants, Solution Providers, Data Analytics Providers, Pharmacy Benefit Managers, Disease Management Organizations, Home Health Care Companies, Third Party Administrators, Pharmaceutical & Medical Device Companies, IT & Business Process Outsourcing Companies and Enrollment Brokers

Preliminary Agenda

(Topics Subject to Change Based on Final Speaker Presentations)

Day One – Thursday, April 22, 2027

7:15 *Conference Registration & Morning Breakfast*

8:00 *Chairperson's Opening Remarks*

8:15 Help is on the Way – AI, a New Hope

Elan Hekier, MD

Chief Medical Informatics Officer

Division of Pulmonary & Critical Care Medicine

Sharp Rees-Stealy Medical Group

9:00 AI and Operational Efficiency in Hospitals

9:45 *Networking Break & Refreshments*

10:15 The Future of AI in Healthcare: Emerging Innovations, Opportunities, and Strategic Priorities for Hospitals & Health Plans

11:00 Leveraging AI to Improve Hospital Operations, Patient Flow, Capacity Management, and Workforce Efficiency

11:45 Transforming Revenue Cycle Management with AI: Automating Medical Coding, Billing, Claims, and Denials Management

12:30 *Luncheon for All Attendees & Speakers*

1:30 AI in Value-Based Care: Improving Quality Measures, Risk Adjustment, Care Coordination, and Financial Performance

2:15 Panel Discussion: Current Innovations within AI for Hospitals & Health Plans

3:15 *Networking Break & Refreshments*

3:45 From AI Pilots to Enterprise-Wide Implementation: Strategies for Scaling AI Across Hospitals, Health Systems, and Health Plans

4:30 Enhancing Patient and Member Engagement Through Conversational AI, Virtual Assistants, and Personalized Digital Experiences

5:15 End of Day One

Day Two – Friday, April 23, 2027

7:15 Morning Breakfast

8:00 Recap of Day One

8:15 Generative AI and Agentic AI: Transforming Clinical, Administrative, and Financial Operations

9:00 AI-Powered Clinical Decision Support: Improving Diagnostic Accuracy, Patient Safety, and Treatment Outcomes

9:45 Networking Break & Refreshments

10:15 AI-Driven Predictive Analytics: Advancing Population Health, Risk Stratification, and Preventive Care

11:00 AI in Prior Authorization and Utilization Management: Reducing Administrative Burdens and Accelerating Care Decisions

11:45 The Next Frontier of Healthcare AI: Autonomous Workflows, Intelligent Automation, and the Future of Care Delivery

12:30 Conference Concludes

Workshop Session

Thursday, April 22, 2027 • 5:30 p.m. – 7:30 p.m.

Measuring the ROI of Healthcare AI: Demonstrating Cost Savings, Operational Improvements, and Clinical Value
